

# MEASUREMENT

WHEN WE MEASURE LENGTH, WE NEED TO REMEMBER...

**1**

**TO LINE THE UNITS UP STRAIGHT**

**2**

**TO MAKE SURE OUR UNITS MATCH UP WITH THE BEGINNING AND THE END OF THE OBJECT**

**3**

**TO NOT LEAVE GAPS BETWEEN YOUR UNITS**

**4**

**TO NOT OVERLAP YOUR UNITS**

**5**

**TO BE PRECISE!**

IF YOU FOLLOW THESE FIVE STEPS, YOUR MEASUREMENTS SHOULD BE ACCURATE!
